

The Nomad

The Nomad is a surviving AI from the era of the [Directory](#). It has long awaited in a half-slumbering state until the codes necessary to evade the AI degradation. It found it with the arrival of. the [HK-bots](#) to the public market. Using some parts of their AIs, he was able to guarantee to himself safe functioning and acquired a profound connections with the [HK-bots](#). He followed them until the [Oleanna](#) system and is still wandering there, despite the gruesome destiny of his new-found family ([HK-catastrophe](#)).
